1/ Summarized only from producers with \$100,000 or more in annual sales.

2/ Data that are not available because of questionnaire differences between years or published at the U.S. level only are denoted with "--".

3/ Individual items may not add to the totals. Confidential data and items with 2001 value of sales less than \$80,000 were not displayed in the table.

4/ Data are not comparable between years. The 2001 questionnaire collected additional individual data which had formerly been in this category.
